### **Company Background and History**

OSAFRIC Ventures is a well-established freight forwarding company founded by Mr. Oscar and Mr. Francis Sarfo. They both have more than ten (10) years of experience in the transport and freight industry. Through their expertise, they have been able to bring the operations of the business to profitability within its first year of operation.

From its humble beginning in the year 2013, the company started out with a home base office located in Tema, community four (4). Today, OSAFRIC is well recognized freight forwarding company in Ghana, registered under the Companies Code of Ghana (1964), Act 79. The company currently deals in clearing and forwarding, warehousing, import and export, consolidation, haulage, and general merchant.

OSAFRIC is a registered company in Ghana, a member of FIATA, Customs Brokers Association of Ghana (CUBAG) as well as Customs House Agent with Ghana Ports and Harbor Operating licenses.

### **Mission**

OSAFRIC seeks to offer excellence by providing world class freight forwarding and global transportation solutions and logistics services. We aim to satisfy clients through linking up international freight handling organizations to meet their expectation.

### **Vision**

Our vision is to become a recognized leader in Africa's freight forwarding industry and the world at large by providing the best in class, high quality freight forwarding service.

## **Product and Services**

Below is a description of the freight forwarding, logistics service and logistics consulting services offered by OSAFRIC VENTURES COMPANY LIMITED.

The Freight forwarding and logistics service has been developed to provide an extremely comprehensive management service of long and short distance trucking for companies and people in the Company's target market area. The Company will offer its clients the ability to manage all of their localized or long distance hauling needs through one business that will provide its clients the ability to manage their shipments in a cost and time effective manner. The Company will also provide consulting advice (on a per hour basis) regarding improving the efficiency of the client's supply chain management and delivery operations. These services are now heavily in demand among product distributors and retailers

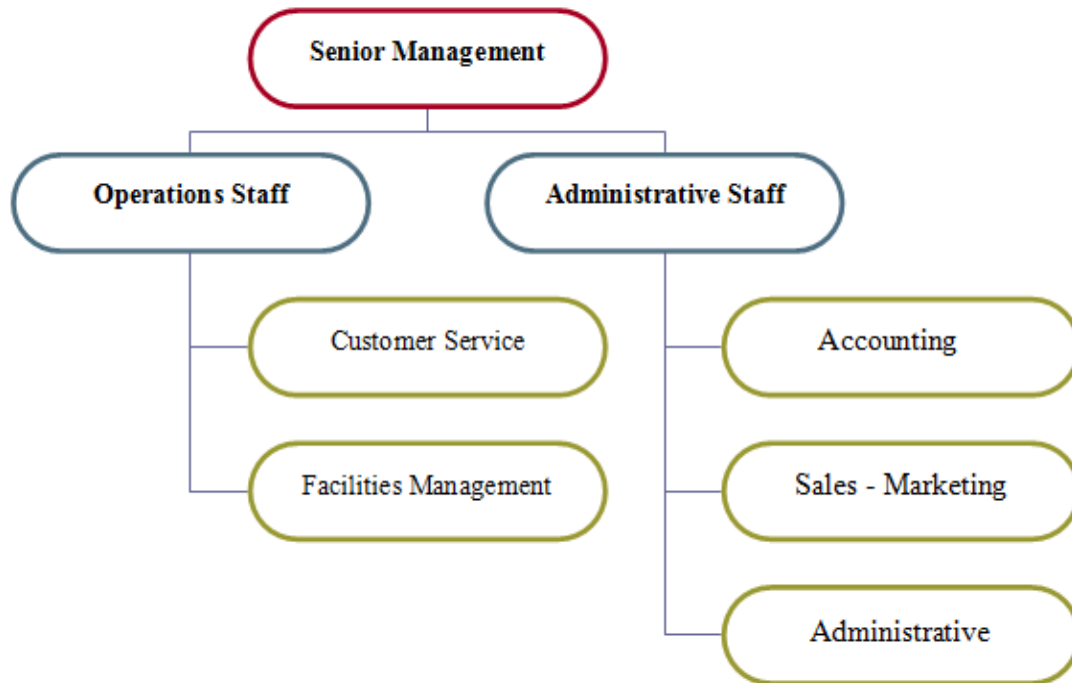

In addition to the service provided above, the Company will make sure that each transportation order is handled in a safe and professional manner. The most important key to maintaining and developing successful business operations is to be able to consistently deliver high quality freight forwarding and logistics service at reasonable prices. With the recent increase in the price of diesel fuels, it is especially important, more now than ever, that Management develops and implement strategies to minimize the possibility of mistakes. The Company will also provide per hour consulting for clients that are seeking to improve the economic efficiency of their supply chain and transportation/delivery operations. The company expects that this aspect of the Company's operations will generate 15% to 20% of the aggregate gross revenues.
